In this case, we are referring to the error codes that Hitachi Cooling & Heating air conditioners produce when a technical fault is recognized by the equipment. Air

Bookmark File PDF Alarm Codes Hitachi Air

Conditioner error codes are a means of letting the technician know what the issue is with the equipment and explaining what the ‘symptoms’ are. If a technician had to diagnose the problem without any indication as to what could be causing it or to which part it is related, it would make the task difficult and time-consuming.
