Scratch is a free programming language for kids developed by MIT's Lifelong Kindergarten Lab. The free language is supplemented by getting-started tutorials, curriculum instructions for parents, and a robust user community. There are even cards kids can use to learn Scratch programming concepts when they are away from the computer.

## **7 Programming Languages to Teach Kids How to Code**

You don't need a fancy computer or fancy app, or any technology to start teaching kids basic coding. All you need is an understanding of how coding and programming work. In this post, we take a look at how parents and educators can teach kids
