Advances in Genetics continues to present articles that are of interest to both human and molecular geneticists. Volume 37 offers a single chapter, written by I.F. Zhimulev, in which Dr. Zhimulev undertakes the laborious task of presenting an in-depth and detailed account of the various aspects of heterochromatin organization in the mitotic and interphase polytene chromosomes. It also includes details concerning the organization of heterochromatin at high resolution are also analyzed.

Papers presented at a national conference held at New Delhi during 22-24 March, 2004.

The Most Authentic Source Of Information On Higher Education In India The Handbook Of Universities, Deemed Universities, Colleges, Private Universities And Prominent Educational & Research Institutions Provides Much Needed Information On Degree And Diploma Awarding Universities And Institutions Of National Importance That Impart General, Technical And Professional Education In India. Although Another Directory Of Similar Nature Is Available In The Market, The Distinct Feature Of The Present Handbook, That Makes It One Of Its Kind, Is That It Also Includes Entries And Details Of The Private Universities Functioning Across The Country. In This Handbook, The Universities Have Been Listed In An Alphabetical Order. This Facilitates Easy Location Of Their Names. In Addition To The Brief History Of These Universities, The Present Handbook Provides The Names Of Their Vice-Chancellor, Professors And Readers As Well As Their Faculties And Departments. It Also Acquaints The Readers With The Various Courses Of Studies Offered By Each University. It Is Hoped That The Handbook In Its Present Form, Will Prove Immensely Helpful To The Aspiring Students In Choosing The Best Educational Institution For Their Career Enhancement. In Addition, It Will Also Prove Very Useful For The Publishers In Mailing Their Publicity Materials. Even The Suppliers Of Equipment And Services Required By These Educational Institutions Will Find It Highly Valuable.

Though the history of Sikh-Muslim relations is fraught with conflict, this book examines how the policies of Sikh rulers attempted to avoid religious bigotry and prejudice at a time when Muslims were treated as third-class citizens. Focusing on the socio-economic, political and religious condition of Muslims under Sikh rule in the Punjab during the 19th century, this book demonstrates that Maharaja Ranjit Singh and his successors took a secular approach towards their subjects. Using various archival sources, including the Fakir Khana Family archives and the Punjab Archives, the author argues citizens had freedom to practice their religion, with equal access to employment, education and justice.

This unique book brings together a wealth of data on the botanical, ethno-medicinal and pharmacological aspects of over 500 species of Asian medicinal orchids. It starts off by explaining the role and limitations of complimentary and herbal medicines, and how traditional Asian medicine differs from Western, “ scientific ” medicine. The different Asian medical traditions are described, as well as their modes of preparing herbal remedies. The core of the book presents individual medicinal orchid species arranged by genera. Each species is identified by its official botanical name, synonyms, and local names. Its distribution, habitat and flowering season, uses and pharmacology are described. An overview sums up the research findings on all species within each genus. Clinical observations are discussed whenever available, and possible therapeutic applications are highlighted. The book closes with chapters on the conservation of medicinal orchids and on the role of randomized clinical trials.

"Akashvani" (English) is a programme journal of ALL INDIA RADIO ,it was formerly known as The Indian Listener.It used to serve the listener as a bradshaw of broadcasting ,and give listener the useful information in an interesting manner about programmes, who writes them,take part in them and produce them along with photographs of performing artists.It also contains the information of major changes in the policy and service of the organisation. The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service,Bombay ,started on 22 december, 1935 and was the successor to the Indian Radio Times in english, which was published beginning in July 16 of 1927. From 22 August ,1937 onwards, it used to published by All India Radio,New Delhi.In 1950,it was turned into a weekly journal. Later,The Indian listener became "Akashvani" (English) in January 5, 1958. It was made a fortnightly again on July 1,1983. Environmental and Health Management of Novel Coronavirus Disease (COVID-19) examines mitigation measures that can be adopted at the time of a novel coronavirus outbreak to lessen environmental contamination and impacts on human health. The book discusses origin, structure and pathogenesis, epidemiology, environmental transmission and the potential spread routes of COVID-19 via surfaces, air, water, wastewater, medical waste and food products. It also covers guidelines and protocols for setting safety conditions to provide adequate health care and reduce the risk of infection in health and non-healthcare settings, along with preventative measures and disinfection technologies. In addition, the book discusses challenges, opportunities and future perspectives, the global crisis, and global consequences on the environment and health. With contributions from experts, this book presents a multidisciplinary reference resource for virologists, microbiologists, public health professionals, environmental health managers and others engaged in the study and mitigation of the environmental and health impacts of the virus. Covers the environmental transmission and spread of COVID-19 Includes environmental disinfection technologies for prevention of COVID-19 Provides guidelines, standards and protocols related to COVID-19

After the coming of age of lipidomics, the science of global lipid analysis has broadened its contribution to the understanding of biological processes. This volume represents a transversal view on the state of the art of research on lipid biology and bioactive lipid molecules. It includes research and review articles on the role of bioactive lipids in diverse domains like cell signaling, neuromuscular transmission, cancer pathophysiology, cardiovascular and rare diseases, antibacterial activity, the emergency of biomaterials, and associated technological and analytical developments. It provides an instantaneous picture of the place of lipidomics and its fields of application, as well as hints about the directions that lipid research may follow in the near future.
