The tenets of Islam cannot be grasped without a proper understanding of the Qur'an. In this important new introduction, Muhammad Haleem examines its recurrent themes - life and eternity, marriage and divorce, peace and war, water and nourishment - and for the first time sets these in the context of the Qur'an's linguistic style. Professor Haleem examines the background to the development of the surahs (chapters) and the ayahs (verses) and the construction of the Qur'an itself. He shows that popular conceptions of Islamic attitudes to women, marriage and divorce, war and society, differ radically from the true teachings of the Qur'an.

An introduction to the Qur'an (Koran), a text that has guided the lives of millions.

"Approaching the Qur'an captures the complexity, power, and poetry of the early suras, or chapters, of the Qur'an, the sacred scripture of Islam. Michael Sells presents brilliant translations of the short, hymnic suras associated with the first revelations to the Prophet Muhammad. In the second edition, Sells offers a new translation and commentary on the Sura of the Compassionate (al-Rahm?n), which holds a special place within Islamic devotion and literature. Additionally, a new preface addresses the ongoing controversy over teaching about Islam and the Qur'an in American universities."--Publisher.

In a multi-faith world, Islam is widely regarded as dogmatic and exclusivist. Yet in the Qur’an we have a great and worthy example of how to live in diversity, of powerful scriptural tenets that lend themselves precisely to engagement with those of other faiths. As such Islam has much to add to the debate on Religious Pluralism. For Muslims the issue is a delicate one. Aside from being tolerant and respectful of other faiths, advocating freedom of faith, and peaceful coexistence for all humanity, Muslims have to intellectually engage on matters of religious truth whilst defending the validity of their own Islamic tenets. This study is focused on the Qur’anic text. It explores the Qur’anic conception of normative religious pluralism with a view to providing answers to questions such as whether the Qur’an itself regards normative religious pluralism as a value system or simply a method through which the Qur’anic world view can be actualized. In doing so the author corrects some highly controversial misquoted, mistranslated, and/or quoted out of context verses of the Qur’an, including the so-called verse of the sword and the perception of not taking non-Muslims as friends. In reality, the Qur’an calls for freedom of faith and peaceful coexistence, but condemns oppression, religious persecution, and those who initiate hostilities. In this way it not only invokes human dignity, but restores it when it is violated.

Comprised of primary sources assembled from a broad chronological and geographic spectrum, Islamic Theological Themes is a comprehensive anthology of primary Islamic sacred texts in translation. The volume includes rare and never before translated selections, all freshly situated and introduced with a view to opening doors into the larger world of Islamic life, belief, and culture. From pre-theological material on the scriptural end of the spectrum, to the more practical material at the other, John Renard broadens our concepts of what counts as “Islamic theology,” situating Islamic theological literature within the context of the emerging sub-discipline of Relational/Comparative Theology. Divided into five parts, students and scholars will find this collection to be an indispensable tool.

If Westerners know a single Islamic term, it is likely to be jihad, the Arabic word for "holy war." The image of Islam as an inherently aggressive and xenophobic religion has long prevailed in the West and can at times appear to be substantiated by current events. L. Carl Brown challenges this conventional wisdom with a fascinating historical overview of the relationship between religious and political life in the Muslim world ranging from Islam's early centuries to the present day. Religion and State examines the commonplace notion—held by both radical Muslim ideologues and various Western observers alike—that in Islam there is no separation between religion and politics. By placing this assertion in a broad historical context, the book reveals both the continuities between premodern and modern Islamic political thought as well as the distinctive dimensions of modern Muslim experiences. Brown shows that both the modern-day fundamentalists and their critics have it wrong when they posit an eternally militant, unchanging Islam outside of history. "They are conflating theology and history. They are confusing the ought and the is," he writes. As the historical record shows, mainstream Muslim political thought in premodern times tended toward political quietism. Brown maintains that we can better understand present-day politics among Muslims by accepting the reality of their historical diversity while at the same time seeking to identify what may be distinctive in Muslim thought and action. In order to illuminate the distinguishing characteristics of Islam in relation to politics, Brown compares this religion with its two Semitic sisters, Judaism and Christianity, drawing striking comparisons between Islam today and Christianity during the Reformation. With a wealth of evidence, he recreates a tradition of Islamic diversity every bit as rich as that of Judaism and Christianity.

A translation of the Koran into English by a native English speaker. Pickthall meant the work to convey the meaning of the Koran rather than to serve as a replacement for reading it in Arabic. He believed that "the Koran cannot be translated". The structure includes a short introduction summarizing the life of Mohammed and explaining the organization of the surahs (in the order that Mohammed preferred them rather than by chronological revelation or by consistent theme). The copy of the Koran that Pickthall used was written in 1246 C.E. by Al-Hajj Muhammad Shakarzâdeh from Turkey.
