Teach kids as young as 5 years old the basic programming skills necessary to code, including sequencing and loops, without a computer. It's never too early to learn computer coding. My First Coding Book is a playful introduction to offline coding and programming that will give young children a head start. Filled with puzzles, mazes, and games to teach the basic concepts of sequences, algorithms, and debugging, this book will help children develop critical thinking, logic, and other skills to cement lifelong computer literacy, which is extremely valuable and sought-after in today's world. With its unique approach and colorful and creative imagery, My First Coding Book makes learning and fun one and the same and will have children playing their way to programming proficiency. Supporting STEM education initiatives, computer coding teaches kids how to think creatively, work collaboratively, and reason systematically, and is quickly becoming a necessary and sought-after skill. DK's computer coding books are full of fun exercises with step-by-step guidance, making them the perfect introductory tools for building vital skills in computer programming.

Download Free My First Coding Book Packed With Flaps And Lots More To Help You Code Without A Computer

This fun, friendly guide explains how computers work and what coding does - then shows you how to code your own stories and games on a tablet. The coding uses ScratchJr, a computer language designed especially for beginners, which is available to download for free. A perfect first introduction to computer coding. Entertaining projects with simple, step-by-step instructions. Includes helpful notes for grown-ups.

Learn to think like a coder without a computer! Each of the fun craft activities included in this book will teach you about a key concept of computer programming and can be done completely offline. Then you can put your skills into practice by trying out the simple programs provided in the online, child-friendly computer language. Scratch. This crafty coding book breaks down the principles of coding into bite-sized chunks that will get you thinking like a computer scientist in no time. Learn about loops by making a friendship bracelet, find out about programming by planning a scavenger hunt, and discover how functions work with paper fortune tellers. Children can then use their new knowledge to code for real by following the clear instructions to build programs in Scratch 3.0. Perfect for kids aged 7-9, the various STEAM activities will help teach children the crucial skills of logical thinking that will give them a head-start for when they begin programming on a computer. Famous scientist pages teach children about coding pioneers, such as Alan Turing and Katherine Johnson, and topic pages, such as the Internet, give kids a wider understanding of the subject. Written by computer science expert Kiki Prottzman, How to be a Coder is so much fun, kids won't realize they're learning!

My First Animals: Let's Squeak and Squawk! helps kids develop first language skills by introducing them to a world of incredible animals. Each tabbed section focuses on a different category of animals, from birds to mammals to sea creatures.

Get the perfect book to introduce young kids to the world of coding. An exciting fun-filled book to give them the perfect start. Ideal for ages 4-7. With this fun illustrated coding workbook, kids will get a head start at coding & become future experts in the STEM fields. Easy-to-understand tutorials in "First Coding Book For Kids by Kidlo" help create a strong foundation of offline coding. That's right - no computer required! The activities in this coding book for beginners are perfect for children of ages 4-7. With this book, curious little minds can learn the basics of coding from scratch & get acquainted with sequencing easily. They can take the first steps towards development of creative thinking, problem-solving & analytical skills with this visual guide! Colorful illustrations make the coding games very exciting to solve. If you are unable to solve a level, no worries! The solutions given at the back will help you out. After solving this book, your kids will be ready to take on languages like Scratch and Swift. The "First Coding Book For Kids by Kidlo" can be useful to understand essential coding concepts and give a playful introduction to programming. So boys and girls, go ahead & begin your coding journey! It won't be long before your baby says I love coding. Kidlo Coding is brought to you by Kidlo Coding Games for Kids, an award-winning app for teaching young learners the basics of coding.

Labeled illustrations and brief text introduce animals, equipment, and other things found on a farm. On board pages.

Engineering is what brings machines to life. Little learners can discover more about engineering at home by reading the simple explanations and doing the beautifully illustrated activities on each page. Start a lifelong passion for STEM subjects and inspire children to, one day, contribute an invention of their own to the world.

Little ones will love learning Spanish with My First Big Book of Bilingual Coloring: Animals, a jumbo coloring book packed with almost 200 pages of bilingual coloring fun! Children will love My First Big Book of Bilingual Coloring: Animals, a follow-up book to the successful My First Big Book of Coloring. This book is packed with images for kids to color alongside the English and Spanish word for each picture. The appealing artwork, with its heavy, chunky black lines, is eye-catching and kid-friendly. This book is sure to engage little ones for hours!

Relaunch of DK's My First series Encourage counting and number skills with this fun first picture book! My First 123 features 17 spreads of objects illustrating numbers 1-10, 20, 50, and 100. Clear word labels accompany each image. My First 123 also contains spreads about subtraction, addition, and counting.

My first ABC book is an exciting alphabet book packed with pull and push tabs that reveal lots of fun surprises and hilarious characters such as Annie Alligator an astronaut, Clive Camel a conductor and Harold Hedgehog the hairdresser.
