Save time and money with two books in one! Half pharmacology, half dosage calculations-plus an intensive and non-threatening review of basic math! Both pharmacology and dosage calculations in one clear and simple text...plus a bonus CD-ROM with dosage calculation software! Now, there's one book that allied health professionals can rely on for need-to-know information on the safe administration of drugs and teaching their patients about their medications. How does it work? The book takes a body systems approach to pharmacology with a basic math review and a focus on drug classifications--preparing students for clinical situations in which specific drugs are used. The CD provides drug calculation activities and a basic math review that helps them to overcome math hurdles and strengthen those trouble areas. A consistent chapter structure progresses from key terms and behavioral objectives through the chapter content (including critical thinking bullets and tables) to application and review exercises at the end. Better than two books in one--Pharmacology Clear & Simple has it all!

The second edition of Dosage Calculations: A Ratio-Proportion Approach builds upon its core strengths-comprehensive math review, ratio-proportion method approach, full-color drug labels, and critical thinking assessment. The author?s trusted three step method, Convert, Think, Calculate, trains users how to significantly reduce errors and increase their confidence in dosage calculation. The second edition includes a new chapter on Preventing Medication Errors and a new StudyWare CD, with 500 additional practice questions with answers and solutions. This edition has also been updated to reflect the most current drugs and protocol, including JCAHO's do-not-use list.

The first edition of Assessment Clear and Simple quickly became the essential go-to guide for anyone who participates in the assessment process in higher education. With the increased pressure to perform assessment to demonstrate accountability, Assessment Clear and Simple is needed more than ever. This second edition of the classic resource offers a concise, step-by-step guide that helps make assessment simple, cost-efficient, and useful to an institution. It contains effective strategies for meeting the requirements of accreditation agencies, legislatures, review boards, and others, while emphasizing and showing how to move from data to actions that improve student learning. This thoroughly revised and updated edition includes many new or expanded features, including: Illustrative examples drawn from the author's experience consulting with more than 350 institutions A basic, no-frills assessment plan for departments and for general education Tips on how to integrate portfolios and e-portfolios into the assessment process Suggestions for using rubrics and alternatives to rubrics, including doing assessment for multidisciplinary work Clear instructions on how to construct a coherent institution-wide assessment system and explain it to accreditors Ideas for assigning responsibility for general education assessment Strategies for gathering information about departmental assessment while keeping the departmental workload manageable Information on how to manage assessment in times of budgetary cutbacks Praise for the Second Edition of Assessment Clear and Simple "Walvoord's approach to assessment is wonderfully straightforward; it is also effective in facilitating faculty engagement in assessment. We've applied a number of her methods to our campus assessment efforts with success. This book makes assessment both manageable and useful in improving and enhancing student learning."--Martha L. A. Stassen, director of assessment, University of Massachusetts, Amherst, and president, New England Educational Assessment Network (NEEAN) "Walvoord's work clearly presents the basics for getting started in assessment of student learning while honestly addressing the complexities of assessment when driven by faculty passion for student learning. This book is a valuable resource for the novice as well as the developing experts who are leading their institutions in academic assessment."--Bobbi Allen, faculty assessment director, Delta College
