With this haunting first volume of his Into Their Labours trilogy, John Berger begins his chronicle of the eclipse of peasant cultures in the twentieth century. Set in a small village in the French Alps, Pig Earth relates the stories of skeptical, hard-working men and fiercely independent women; of calves born and pigs slaughtered; of summer haymaking and long dark winters f rest; of a message of forgiveness from a dead father to his prodigal son; and of the marvelous Lucie Cabrol, exiled to a hut high in the mountains, but an inexorable part of the lives of men who have known her. Above all, this masterpiece of sensuous description and profound moral resonance is an act of reckoning that conveys the precise wealth and weight of a world we are losing.

Recycling, a visit to the Botanical Gardens, and a ride in an electric car—it's all part of Peppa and George's Earth Day celebration! It's Earth Day, and Peppa and her family are celebrating with a visit to the Botanical Gardens. But first, there's recycling to sort and compost to collect. Then they're off in Daddy Pig's electric car! At the gardens, everyone enjoys seeing and learning about the many plants and the colorful wildflowers, which the bees love almost as much as Peppa does. There's even a surprise outside—one that's wet and squishy and just right for jumping in!

Shedding profound natural light on the inner lives of migrant workers, Jaime Cortez’s debut collection ushers in a new era of American literature that gives voice to a marginalized generation of migrant workers in the West. The first-ever collection of short stories by Jaime Cortez, Gordo is set in a migrant workers camp near Watsonville, California in the 1970s. A young, probably gay, boy named Gordo puts on a wrestler’s mask and throws fists with a boy in the neighborhood, fighting his own tears as he tries to grow into the idea of manhood so imposed on him by his father. As he comes of age, Gordo learns about sex, watches his father’s drunken fights, and discovers even his own documented Mexican-American parents are wary of illegal migrants. Fat Cookie, high schooler and resident artist, uses tiny library pencils to draw huge murals of graffiti flowers along the camp’s blank walls, the words “CHICANO POWER” boldly lettered across, until she runs away from home one day with her mother’s boyfriend, Manny, and steals her mother’s Panasonic radio for a final dance competition among the camp kids before she disappears. And then there are Los Tigres, the perfect pair of twins so dark they look like indios, Pepito and Manuel, who show up at Gyrich Farms every season without fail. Los Tigres, champion drinkers, end up assaulting each other in a drunken brawl, until one of them is rushed to the emergency room still slumped in an upholstered chair tied to the back of a pick-up truck. These scenes from Steinbeck Country seen so intimately from within are full of humor, family drama, and a sweet frankness about serious matters – who belongs to America and how are they treated? How does one learn decency, when laborers, grown adults, must fear for their lives and livelihoods as they try to do everything to bring home a paycheck? Written with balance and poise, Cortez braids together elegant and inviting stories about life on a California camp, in essence redefining what all-American means.
