Postmodernism, also spelled post-modernism, in Western philosophy, a late 20th-century movement characterized by broad skepticism, subjectivism, or relativism; a general suspicion of reason; and an acute sensitivity to the role of ideology in asserting and maintaining political and economic power. Jacques Derrida.

postmodernism | Definition, Doctrines, & Facts | Britannica

The postmodernism refers to the confused state of cultural developments that came into existence after modernism. As a matter of fact, the period after 1960s is generally considered postmodern in nature. To be precise, postmodernism is construed as begun after 1968. There is a strong belief that modernism paved the way for postmodernism.

Post Modernism. Postmodern society is diverse and pluralistic. Postmodern society's images are perceived through films, videos, TV programmes and websites and circulated around the world. We come into contact with many ideas and values, having little connection with the history of the areas in which we live, or with our own personal histories. One important theorist of postmodernity is the French author Jean Baudrillard, who was strongly influenced by Marxism in his early days, believes that ...
