It is recommended that snowboarding beginners buy a lighter snowboard, as they are essential for practicing at low skill levels, and to then gradually move up to a heavier snowboard. The base of your snowboard also contributes to the overall weight. Snowboard bases are made up of polyethylene, and they are either extruded or sintered.

Snowboarding~~

Buying an all-mountain board ensures that as you progress in your riding ability, you have a board well suited for whatever style of riding you end up preferring. Flex- As you start on your snowboarding journey, you will want a board with a decent amount of flex because a softer board takes less muscle to control and is far easier to command. This means you'll spend less time on your rump and more time on the runs.
