applications to both work and life, and uses vignettes to emphasise the relevance of social psychology research.

This exciting new textbook for introductory psychology helps to open students' minds to the idea that psychology is all around us. Authors RON COMER and LIZ GOULD encourage students to examine what they know about human behaviour and how they know it; and open them up to an appreciation of psychology outside of the classroom. Psychology Around Us helps students see the big picture by stressing the interconnected nature of

activities such as eating pizza, studying psychology, or listening to music. Chapter Opening Vignettes - Every chapter begins with a vignette that shows the power of psychology in understanding a whole range of human behaviour. This theme is reinforced throughout the chapter, celebrating the extraordinary processes that make the everyday possible. Special topics on psychology around us - Each chapter highlights interesting news stories, current controversies in psychology, and relevant research findings that demonstrate psychology around us. emphasizes the practical application of everyday psychology. Helpful study tools - Key Terms; Marginal Definitions; Marginal Notes; Chapter Summaries.

"This book is designed to help students organize their thinking about psychology at a conceptual level. The focus on behaviour and empiricism has produced a text that is better organized, has fewer chapters, and is somewhat shorter than many of the leading books. The beginning of each section includes learning objectives; throughout the body of each section are key terms in bold followed

SOCIAL PSYCHOLOGY AND HUMAN NATURE, 4th Edition, offers a remarkably fresh and compelling exploration of the fascinating field of social psychology. Respected researchers, teachers, and authors Roy Baumeister and Brad Bushman give students integrated and accessible insight into the ways that nature, the social environment, and culture interact to influence social

Bookmark File PDF Social Psychology 4th Canadian Edition

behavior. While giving essential insight to the power of situations, the text's contemporary approach also emphasizes the role of human nature -- viewing people as highly complex, exquisitely designed, and variously inclined cultural animals who respond to myriad situations. With strong visual appeal, an engaging writing style, and the best of classic and current research, SOCIAL PSYCHOLOGY AND HUMAN NATURE helps students make sense of the sometimes baffling -- but always interesting -- diversity of human behavior.
