Scientists find 33 new species in sealed off cave. Scientists have so far identified 48 total species living inside of the prehistoric time capsule, including spiders, scorpions, centipedes, and many others. Incredibly, a whopping 33 of the creatures that were found are actually only found in this specific cave and nowhere else on earth. They've existed for longer than modern humans have been on this planet, and yet they've never been discovered because they lived in seclusion inside a ...

Storyline. Decades after a rock church in communist Romania's Carpathians caved when an expedition caused a landslide and buried everyone, Dr. Nicolai's scientific team exploring the associated Templar Knights monster fighting-legend discovers a deep, flooded cave system and hires the brothers Jack and Tyler's brilliant divers team to explore it. Another explosion traps them, after finding a mysterious parasite turning all species carnivore, and later an independently evolved predator species.
